INDEX TO VOLUME 8.

	PAGE
Agriculture—Australian Council of	47
Standing Committee on	47
Allan, J. M.—See Angell, H. R., Hill, A. V., and Allan, J. M.	
Angell, H. R., Hill, A. V., and Allan, J. M.—Downy Mildew (Blue Mould) of Tobacco: Its Control by Benzol and Toluol Vapours in Covered Seed-beds ..	203
Andrewartha, H. G.—Thrips Investigation 7: On the Effect of Temperature and Food upon Egg Production and the Length of Adult Life of <i>Thrips imaginis</i> Bagnall	281
Andrewartha, H. V., and Andrewartha, H. G.—A Multiple-Temperature Incubator ..	289
Animal Health, Division of	246
Anthelmintic Medication, A New Principle in	140
Apple Case—Commercial Export Trial of an Improved Dump	76
Apple Investigations—	
Crop Size and Wastage in Apples	53
Miscellaneous Notes 5: Cool Storage Scalds of Apples	71
Miscellaneous Notes 6: Bruising and Breakdown in Jonathan Apples ..	223
Miscellaneous Notes 7: The Safe Limit of Carbon Dioxide Concentration under ordinary Cool Storage Conditions	271
Investigations in Connexion with the Apple Industry	237
Breakdown in Tasmanian Apples	265
Codling Moth Investigations	324
Ataxia—The Prophylaxis of Enzootic Ataxia of Lambs in Western Australia ..	61
Australian Council of Agriculture	47
Australian Institute of Agricultural Science, Journal	142
Australian Pastoral Research Trust—Contributions to work on Sheep Problems ..	325
Bacteria—Mechanics of Securing Even Distribution of Bacteria on Agar Surfaces ..	225
Banana Investigations	241, 326
Barnard, C.—See West, E. S. and Barnard, C.	
Bees, Research on: Progress Report II.	14
Benzol—Downy Mildew (Blue Mould) of Tobacco: Its Control by Benzol and Toluol Vapours in Covered Seed-beds	203
Bennetts, H. W.—The Prophylaxis of Enzootic Ataxia of Lambs in Western Australia	61
Beveridge, W. I. B.—Foot-rot in Sheep: Preliminary Note on Aetiology and Possibility of Control	308
Black Disease of Sheep: French Investigations	246
Blowflies—	
Blowfly Attack on Sheep: Its Prevention by Fold Removal (Mules' Operation) ..	25
Sheep-Blowfly Investigations: Observations on the Mules' Operation ..	169
Note on New Dressings for Fly-Struck Sheep	161
Blue Couch Grass, <i>Cynodon incompletus</i> —The Amount of Hydrocyanic Acid in ..	136
Blue Mould, Downy Mildew of Tobacco: Its control by Benzol and Toluol Vapours in Covered Seed-beds	203
<i>Boophilus microplus</i> —The Australian Cattle Tick, the Time Between Dipping and Removal of Cattle Necessary to Protect Free Areas	133
Bovine Mastitis—Survey of the Literature	247
Co-operative Investigations	322
Bull, L. B.—Appointment as Chief of Divisions of Animal Health and of Animal Nutrition	246
Carne, W. M. and Martin, D.—	
Apple Investigations in Tasmania: Miscellaneous Notes	71, 223, 271
Breakdown in Tasmanian Apples	265
Crop Size and Wastage in Apples	53
Carne, W. M.—See Turnbull, R. F. and Carne, W. M.	
Case—Commercial Export Trial of an Improved Dump	76

INDEX—continued.

	PAGE
Cattle Diseases—	
Recent Research into the Redwater Diseases of Queensland Cattle ..	79
Peg-leg of Cattle in North Queensland	120
Australian Cattle Tick (<i>Boophilus microplus</i>)—The Time Between Dipping and Removal of Cattle Necessary to Protect Free Areas	133
Bovine Mastitis—Survey of the Literature	247
Cattle Tick, Australian (<i>Boophilus microplus</i>)—The Time Between Dipping and Removal of Cattle Necessary to Protect Free Areas	133
Citrus Preservation Investigations	49, 239
Clunies Ross, I.—Tick Paralysis: A Fatal Disease of Dogs and Other Animals in Eastern Australia	8
“Coast Disease”—	
Problems Associated with “Coast Disease” in South Australia	111
Effect of the Ingestion of Minute Quantities of Cobalt by Sheep affected with: A Preliminary Note	117
Cobalt—The Effect of the Ingestion of Minute Quantities of Cobalt by Sheep affected with “Coast Disease”	117
Codling Moth Investigations	324
Cohen, W. E.—Chemical Investigation of <i>Pinus radiata</i> in Relation to its Paper-Making Qualities Part I.—The Distribution and Nature of the Non-Volatile Ether Extractives	27
Colman, G. S.—Comments on the Rabbit Pest in Australia	149
Cummins, J. E.—Colorimetric Method for Determining the Penetration of Zinc Salts in Treated Wood	143
Cummins, J. E. and Wilson, H. B.—Starch Content of Some Australian Hardwoods in Relation to their Susceptibility to Attack by the Powder Post Borer, <i>Lyctus brunneus</i> , Stephens	101
Currie, G. A.—Research on Bees: Progress Report II.	14
<i>Cydia molesta</i> Busck, the Peach Moth: Investigations in the Goulburn Valley, Victoria. Progress Report for the Season 1934-35	171
<i>Cynodon incompletus</i> , Blue Couch Grass, Amount of Hydrocyanic Acid in	136
Dakin, William J.—Production of Oysters and Prawns in Australian Waters	50
Dann, A. T.—See Turner, A. W., Kelley, R. B., and Dann, A. T.	
Davidson, J.—Apple Thrips (<i>Thrips imaginis</i> Bagnall)	234
Department of Scientific and Industrial Research (Great Britain) Annual Report	145
Dogs, Tick Paralysis of	8
Downey Mildew (Blue Mould) of Tobacco: Its Control by Benzol and Toluol Vapours in Covered Seed-beds	203
Earl, J. C. and Hall, N. F. B.—The Chemistry of Australian Grown Tobacco	277
Enzootic Ataxia of Lambs, Prophylaxis of—in Western Australia	61
Eucalypt Timbers, Co-operative Investigations Concerning the Manufacture of Paper from	139
<i>Eucalyptus diversicolor</i> —Tests on Small Clear Specimens of Green Karri	228
<i>Eutermes exitiosus</i> —The Termite Population of a Mound Colony of	42
Evans, J. W.—Thrips Investigation: Further Observations on the Seasonal Fluctuations in Numbers of <i>Thrips imaginis</i> Bagnall and Associated Blossom Thrips	86
Finnemore, H. and Jaffray, A. B.—Amount of Hydrocyanic Acid in a Blue Couch Grass <i>Cynodon incompletus</i> Nees	136
Fisheries Investigations	321
Flag Smut—Unreliability of Selection in the F ₂ for Breeding Wheat Resistant to	214
Fluorine Compounds—Effect of in Sheep Licks	52
Foot-rot in Sheep: Preliminary Note on Aetiology and the Possibility of Control	308
Forest Products Division—	
Grant for New Laboratories	48
Gift of £5,000 by Mr. Russell Grimwade	139

INDEX—continued.

	PAGE
Freney, M. R., Mackerras, I. M., and Mackerras, M. J.—Note on New Dressings for Fly-struck Sheep	161
Gay, F. J.—Peach Moth (<i>Cydia molesta</i> Busck) Investigations in the Goulburn Valley, Victoria. Progress Report for the Season 1934-5	171
Gay, F. J.—See Holdaway, F. G., Gay, F. J., and Greaves, T.	
Geological Survey—Our Mineral Problems and the Need for a National Geological Survey	249
Gordon, H. McL.—A Note on the Treatment of Tapeworm (<i>Moniezia</i> spp.) Infestation of Sheep	21
Grasshopper Pest	242
Great Britain, Department of Scientific and Industrial Research	145
Greaves, T.—See Holdaway, F. G., Gay, F. J., and Greaves, T.	
Grimwade, Gift of £5,000 by Mr. Russell Grimwade	139
Hall, N. F. B.—See Earl, J. C. and Hall, N. F. B.	
Hawkes, W. G.—Rabbit Pest in Australia	150
Hill, A. V.—See Angell, H. R., Hill, A. V., and Allan, J. M.	
Holdaway, F. G., Gay, F. J., and Greaves, T.—Termite Population of a Mound Colony of <i>Eutermes exitiosus</i> Hill	42
Incubator—A Multiple-Temperature	289
Jaffray, A. B.—Note on the Evaluation of Australian Grown Pyrethrum Flowers	231
Jaffray, A. B.—See Finnmere, H. and Jaffray, A. B.	
Karri—Tests on Small Clear Specimens of Green Karri (<i>Eucalyptus diversicolor</i>)	228
Kelley, R. B.—See Turner, A. W., Kelley, R. B., and Dann, A. T.	
Laboratories—Commonwealth Grant for New	48
of Division of Forest Products	324
Lambs, Prophylaxis of Enzootic Ataxia of in Western Australia	61
Langlands, Ian—Tests on Small Clear Specimens of Green Karri (<i>Eucalyptus diversicolor</i>)	228
Lefroy, E. H. B.—Rabbit Pest in Australia	153
Legg, John—	
Recent Research into the "Redwater" Diseases of Queensland Cattle	79
The Australian Cattle Tick (<i>Boophilus microplus</i>), the Time between Dipping and Removal of Cattle Necessary to Protect Free Areas	133
Licks—Effect of Fluorine Compounds in Sheep Licks	52
Lines, E. W.—Effect of the Ingestion of Minute Quantities of Cobalt by Sheep Affected with "Coast Disease." A Preliminary Note	117
<i>Lyctus brunneus</i> —Starch Content of Some Australian Hardwoods in Relation to Their Susceptibility to Attack by the Powder Post Borer	101
Mackerras, I. M.—Sheep Blowfly Investigations: Observations on the Mules' Operation	169
Mackerras, I. M.—See Freney, M. R., Mackerras, I. M., and Mackerras, M. J.	
Mackerras, M. J.—See Freney, M. R., Mackerras, I. M., and Mackerras, M. J.	
McMaster, Sir Frederick—Rabbit Pest in Australia	157
McMillan, J. R. A.—	
Predetermination as an Influence on Yield in Wheat Plants	1
Unreliability of Selection in the F ₂ for Breeding Wheat Resistant to Flag Smut	214
Wheat Variety Investigations—Progress Report	316
McTaggart, A.—Study of the Inter-relation of Species in Pasture Mixtures Subjected to Differential Treatment in the Canberra (F.C.T.) Area	177
Marston, H. R.—	
Problems Associated with "Coast Disease" in South Australia	111
On some Physiological Aspects of the Phosphorus Metabolism of the Sheep	293

INDEX—continued.

	PAGE
Martin, D.—See CARL. W. M. and Martin, D.	
Mastitis—See "Bovine Mastitis"	
Mineragraphic Research	55
Minerals—Our Mineral Problems and the Need for a National Geological Survey	249
Mining Investigations—(a) Mineragraphic Research and (b) Ore-Dressing Research	55
<i>Moniezia</i> spp.—Tapeworm Infestation of Sheep, a Note on the Treatment of ..	21
Mules' Operation—Blowfly Attack on Sheep: Its Prevention by Fold Removal	25
Sheep Blowfly Investigations: Observations on	169
Nodule Worm of Sheep (<i>Oesophagostomum columbianum</i>), Control of	140
<i>Oesophagostomum columbianum</i> , Nodule Worm of Sheep, Control of	140
Oranges—Alternation of Heavy and Light Crops in the Valencia Late ..	93
Ore-Dressing Research	55
Oysters and Prawns—Production of in Australian Waters	50
Paper, Co-operative Investigations Concerning the Manufacture of, from Eucalypt Timbers	139
Paper Making Qualities—Chemical Investigation of <i>Pinus radiata</i> in Relation to, Part 1. The Distribution and Nature of the Non-Volatile Ether Extractives	27
Pastures—	
Study of the Inter-relation of Species to Pasture Mixtures Subjected to Differential Treatment in the Canberra (F.C.T.) Area	177
Chemical Composition of Certain Pasture Species at Flowering and Maturity	187
Note on the Origin of "Toowoomba Canary Grass" (<i>Phalaris tuberosa</i> L.) ..	195
Peach Moth (<i>Cydia molesta</i> Busck) Investigations in the Goulburn Valley, Victoria. Progress Report for the Season 1934-35	171
Pears, Successful Export of William's	142
Peg-leg of Cattle in North Queensland	120
<i>Phalaris tuberosa</i> L. Toowoomba Canary Grass, A Note on the Origin of ..	95
Phosphorus—On some Physiological Aspects of the Phosphorus Metabolism of the Sheep	293
<i>Pinus radiata</i> —Chemical Investigation of, in Relation to its Paper-making Qualities. Part 1, The Distribution and Nature of the Non-Volatile Ether Extractives	27
Poison Plants—Amount of Hydrocyanic Acid in a Blue Couch Grass, <i>Cynodon incompletus</i> Nees	136
Pole Tests, Co-operative in New South Wales	144
Powder Post Borer—Starch Content of Some Australian Hardwoods in Relation to the Susceptibility to Attack by <i>Lyctus brunneus</i> Stephens	101
Prawns and Oysters—Production in Australian Waters	50
Predetermination as an Influence on Yield in Wheat Plants	1
Publications of Council	58, 147, 247, 327, 328
Pyrethrum Flowers—Note on the Evaluation of Australian Grown	231
Rabbit Pest in Australia, Comments on	149
Radio Research Board: Seventh Annual Report	253
"Redwater" Diseases—Recent Research into, of Queensland Cattle	79
Reviews—"The Life Forms of Plants and Statistical Plant Geography" ..	56
"Chronica Botanica"	326
Riddle, A. R.—Mechanics of Securing Even Distributions of Bacteria on Agar Surfaces	225
Rivett, David—Our Mineral Problems and the Need for a National Geological Survey	249

INDEX—continued.

	PAGE
Seddon, H. R.—Blowfly Attack in Sheep: Its Prevention by Fold Removal (Mules' Operation)	25
Shapter, R. E.—Chemical Composition of Certain Pasture Species at Flowering and Maturity	187
Sheep Diseases—	
Problems Associated with "Coast Disease" in South Australia	111
Effect of Ingestion of Minute Quantities of Cobalt by Sheep Affected with "Coast Disease": A Preliminary Note	117
Black Disease: French Investigations	246
Foot rot: Preliminary Note on Etiology and the Possibility of Control ..	308
Sheep Parasites—	
A Note on the Treatment of Tapeworm (<i>Moniezia</i> spp.) Infestation of Sheep	21
Control of the Nodule Worm of Sheep (<i>Oesophagostomum columbianum</i>) ..	140
A New Principle in Anthelmintic Medication	140
Sheep Problems—Contributions by Australian Pastoral Research Trust	325
Smith, H. Fairfield—Reversion of Selected Strains of a Wheat Variety	37
Standing Committee on Agriculture	47
Starch—The Starch Content of Some Australian Hardwoods in Relation to Their Susceptibility to Attack by the Powder Post Borer (<i>Lyctus brunneus</i>) Stephens	101
The Occurrence and Distribution of Starch in the Wood of Red Tulip Oak (<i>Tarrietia argyrodendron</i> var. <i>peralata</i>)	305
Tapeworm (<i>Moniezia</i> spp.) Infestation of Sheep, A Note on	21
Termites—The Population of a Mound Colony of <i>Eutermes exitiosus</i> Hill	42
Thrips—	
The Apple-Thrips (<i>Thrips imaginis</i> Bagnall)	234
Thrips Investigation 6: Further Observations on the Seasonal Fluctuations in Numbers of <i>Thrips imaginis</i> Bagnall and Associated Blossom Thrips ..	86
Thrips Investigation 7: The Effect of Temperature and Food upon Egg Production and the Length of Adult Life of <i>Thrips imaginis</i> Bagnall ..	281
Ticks—Tick Paralysis: A Fatal Disease of Dogs and other Animals in Eastern Australia	8
The Australian Cattle Tick (<i>Boophilus microplus</i>): The Time between Dipping and Removal of Cattle necessary to Protect Free Areas ..	133
Timber Preservation—	
Colorimetric Method for Determining the Penetration of Zinc Salts in Treated Wood	143
Co-operative Pole Tests in New South Wales	144
Tobacco—	
Breeding Work of the New South Wales Department of Agriculture	51
Downy Mildew (Blue Mould) of. Its Control by Benzol and Toluol Vapours in Covered Seed-beds	203
Investigations	243
The Chemistry of Australian-grown Tobacco	277
Toluol—Blue Mould (Downy Mildew) of Tobacco: Its Control by Benzol and Toluol Vapours in Covered Seed-beds	203
"Toowoomba Canary Grass" (<i>Phalaris tuberosa</i> L.) a Note on the Origin of ..	195
Trumble, H. C.—Note on the Origin of "Toowoomba Canary Grass" (<i>Phalaris tuberosa</i> L.)	195
Tulip Oak—The Occurrence and Distribution of Starch in the Wood of Red Tulip Oak	305
Turnbull, R. F. and Carne, W. M.—Commercial Export Trial of an Improved Dump Case	76

INDEX—*continued*.

	PAGE
Turner, A. W., Kelley, R. B., and Dann, A. T.—Peg-leg of Cattle in North Queensland	120
Valencia Late Orange—Alternation of Heavy and Light Crops in	93
Wade, C.—Rabbit Pest in Australia	159
Wenholz, H.—Tobacco Breeding Work of the New South Wales Department of Agriculture	51
West, E. S. and Barnard, C.—Alternation of Heavy and Light Crops in Valencia Late Orange	93
Wheat—Predetermination as an Influence on Yield	1
Reversion of Selected Strains of a Wheat Variety	37
Unreliability of Selection in the F_2 for Breeding Wheat Resistant to Flag Smut	214
Wilson, H. B.— <i>See</i> Cummins, J. E. and Wilson, H. B.	101
The Occurrence and Distribution of Starch in the Wood of Red Tulip Oak	305
Wood—Colorimetric Method for Determining the Penetration of Zinc Salts in	143
Zinc Salts—Colorimetric Method for Determining the Penetration of in Treated Wood	143
